SOUTH MIAMI EARNS 'BEST OF AQUATICS' AWARD

South Miami, FL – Aquatics International has named the City of South Miami Parks and Recreation Department a recipient of the 2016 'Best of Aquatics' award. The award was received in the category of 'Best Targeted Programming' for the efforts and improvements made in teaching children how to swim. [Click here to read the article.](#)

Aquatics International is a magazine (print and online) that targets professionals in the aquatic industry. Articles highlight safety best practices, accomplishments of facilities and programs, and news related topics. Each year, Aquatics International selects award winners for Best of Aquatics from a large application pool of municipalities, water parks, resorts and private facilities. This year, eight (8) facilities were highlighted for excelling in serving their communities, whether through programming, outreach or other aspects of operations.

The City of South Miami will be honored at an awards breakfast for the winners. The ceremony will be held as part of the Association of Aquatics Professionals (AOAP) annual conference in St. Pete's Beach from February 7th through February 10th, 2017.
