The City of South Miami has received concerns from our residents regarding traffic and speeding within the area bounded by SW 64th Street (Hardee Dr) to the north, SW 65th Terrace to the south, SW 65th Avenue to the east, and SW 67th Avenue (Ludlam Road) to the west. In response to these concerns, and upon completion of a traffic study for this area, traffic calming devices are being proposed by the consultant. As a condition of approval from Miami-Dade County Public Works Department, the City is required to provide documentation that 2/3 of the affected property owners and residents in the area concur with the installation of the traffic calming devices.

Receipt of this letter indicates that your property is within the affected area and subject to concurrence vote. Please fill in the form below and mail/fax it to the City at the Public Works Office or City Hall. A signed form may also be scanned and emailed to [Engineering@SouthMiamiFl.gov](mailto:Engineering@SouthMiamiFl.gov).

Please check the boxes for the proposed traffic calming devices that you concur with, listed below by type and location.

Speed tables at each of the following locations:

- SW 65<sup>th</sup> Street, between SW 65<sup>th</sup> Avenue and SW 67th Avenue

The photograph below illustrates as example of the speed tables being proposed. Driveways will not be obstructed.

I, \_\_\_\_\_, of the property at \_\_\_\_\_,  
[Owner/ Resident's Name, Please Print] [Property Address]

- Do concur
- Do not concur

with the traffic calming devices checked above.
